

# Newsletter 6

Hello everyone!

We hope you had a great first day at RoboCupJunior Soccer Championships 2021.  
Here's all information we shared with you in the Daily Gathering, starting with the recordings:

## Daily Gathering for Simulation: 2021-06-23 2pm UTC

## Interviews

You should have registered for the first interview by now. To find out who your interview partners are, or to find out which room you'll be in, feel free to have a look at the interview lists. They are on the screens in front of the interview rooms.

This is the interview schedule for Technical Challenge 1:

### Please note:

- Some of you registered twice.  
We kept the registration with the later timestamp.
- Some of you registered with your personal name.  
We tried to look up your team name and registered your team instead.

Please have a look at the PDF for any mistakes.

### Important:

When registering for the SuperTeam interviews, please register as ONE SuperTeam with your SuperTeam name. **Do not register as a single individual team for the SuperTeam Challenge.** (That happened already twice, and we had to delete it.)

**Also Important:**

**For Simulation Teams, there will be no SuperTeam Challenge Interviews.**

Instead, we will be busy simulating your code. LW and Open Teams will have their SuperTeam Interviews as scheduled.

## Technical Challenges

Today, there's no new challenge to be released. Instead, you have 24 more hours to work on the SuperTeam Challenges which are due tomorrow:

- Simulation: June 24th, 2pm UTC
- LW & Open: June 24th, 3pm UTC

You can use the same form for the submission that you have used for submitting the first challenge - simply select your league and "SuperTeam Challenge":

## FAQ: SuperTeams with only 2 members

If you are in a SuperTeam of only 2 teams, then ...

- ... for Open & LW Leagues:  
You need to solve all 3 ST-Challenges, so for example:  
Team 1 solves ST-Challenge 1 and 2, while  
Team 2 solves ST-Challenge 3
- ... for Simulation:  
You need to send in code for all 3 robots, so for example:  
Team 1 contributes the code for Robots 1 and 2, while  
Team 2 contributes the code for Robot 3

## FAQ: How do I find my SuperTeam partner(s)?

The SuperTeam Distribution was sent to you via Newsletter 5 yesterday, and it's on-screen in Gather.Town now. Here's the list:

Also, the e-mails of your SuperTeam partner(s) were shared with you this morning. The easiest way to connect with them is via Gather.Town: Just look out for your partner's team name above their heads, or in the member's list on the bottom left.
